

4th Swiss Conference on Data Science

SDS|2017

16th of June 2017 Kursaal, Bern

4th Swiss Conference on Data Science – SDS|2017

Kursaal Bern, Switzerland, 16 June 2017 – www.sds2017.ch

SDS|2017 brings together opinion-leaders, practitioners, decision-makers and researchers with interest in Data Science. The goal is to foster the exchange of ideas specifically for the Swiss market and to sustain the community of Data Scientists in Switzerland. Get access to trends, innovations, and technologies that you can directly use for the development of your products, solutions, and applications based on data (structured, unstructured, internal, open, linked...), and use the breaks for networking and discussion with peers. Discuss latest research and discover new methods and tools.

Program

Participants will get hands-on showcases, demonstrations and insights on Data Science solutions and technologies, organized into several tracks to specifically address project leaders/decision makers and researchers/a tech-savvy audience separately. Specifically, talks and demos will address:

Data product design, data-centric business models | Applications of machine learning, information retrieval, data warehousing, and analytics | Artificial Intelligence and its applications in Industry | Cyber security in relation to data science | Demonstration of tools and technologies for big (and small) data | Visualization and communication of analytical results | Ethics, privacy and law in relation to Data Science | Best practices in Data Science and lessons learned

We are especially proud of the following confirmed keynote speakers:

- Claudia Perlich, Chief Scientist at Dstillery, New York, USA
- Clemens Cap, Professor at University of Rostock, Germany
- David Kriesel, Technology Engineer at Procter & Gamble, Euskirchen, Germany
- Gregory Grefenstette, Senior Research Scientist, Florida Institute for Human & Machine Cognition
- Volker Markl, Professor at Technische Universität Berlin, Germany
- Thomas Roefer, Senior Researcher, Cyber-Physical Systems, University of Bremen, Germany

Registration

Registration is open until 8th June 2017 via www.sds2017.ch
